

Oxford Reading Tree: Stages 1-11: Fact Finders: Unit F: Our Environment: Class Pack

Roderick Hunt, Etc.

The Fact Finders series is the non-fiction component of Oxford's popular infant reading scheme. It introduces non-fiction books to infant children, and focuses on developing the information retrieval and handling skills they will need in later years. The series encompasses a whole range of genres, illustration styles and subject focuses. The titles are grouped into units which progress in difficulty from Unit A to F. Links with the schemes storybooks in terms of content and level are given in the accompanying teachers guides, which also offer teaching strategies and photocopiable activities.
