

# The Pain in Pleasure

Lawrence Bolar

The Pain in Pleasure is a book focused around the pleasures of life that people enjoy and how those pleasures can have a permanent effect. It is filled with true and dramatical events that provoke your thoughts and present the opportunity to view the choices you make differently. Some of the subject matter is adult in nature but not explicit by any means. The Pain in Pleasure is overflowing with scandalous analogies backed by scriptural references and biblical principles that precede them. My chief purpose for writing this book is to persuade each reader to personally examine their choices in life and to effectively analyze the decisions they have made and will make in the future. Our world today consists of many unusual challenges that we must face. The Vision for The Pain in Pleasure project is to create a resource that promotes the building and edification of the kingdom of God. This resource will educate, inspire and transform the mind of All of Gods people.
